Trinity River Basin Fish and Wildlife Task Force; Notice of Establishment

This notice is published in accordance with Section 9(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463). Following consultation with the General Services Administration, notice is hereby given that the Secretary

of the Interior is establishing the Trinity River Basin Fish and Wildlife Task Force (Task Force). The purpose of the Task Force is to assist the Secretary of the Interior in formulating and implementing a Trinity River watershed ecosystem management program for fish and wildlife. This ecosystem management program will incorporate the needs of multiple species and their interactions with physical habitats to assist the Secretary in restoring the natural function, structure, and species composition of the ecosystem, recognizing that all components are interrelated. The Task Force will advise the Secretary on (1) rehabilitation proposals for the Trinity River and its tributaries, (2) ways to increase the effectiveness of the Trinity River Fish Hatchery, and (3) on the establishment of an adaptive management program to monitor fish and wildlife populations and the effectiveness of the rehabilitation work.

Further information regarding the Task Force, including nominations for membership, may be obtained from the Bureau of Reclamation, Department of the Interior, 1849 C Street, NW, Washington, DC 20240. You may also call Bernice Sullivan, Trinity-Klamath Watershed Program Coordinator, at (916) 978-5113.

The certification of establishment is published below:

Certification

I hereby certify that establishment of the Trinity River Basin Fish and Wildlife Task Force is in the public interest in connection with the performance of duties imposed on the Department of the Interior.

Bruce Babbitt,

Secretary of the Interior.

BILLING CODE 4310-94-M

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Contra Costa Water District's Future Use and Operation of Contra Loma Reservoir Project, Contra Costa County, CA

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability of the draft environmental impact report/draft environmental impact statement (DEIR/DEIS). INT—DES 99-1.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA) and the California Environmental Quality

Act, the Bureau of Reclamation (Reclamation) and Contra Costa Water District (CCWD) have prepared a joint DEIR/DEIS for CCWD's future use and operation of Contra Loma Reservoir Project. The proposed action is for CCWD to comply with a California State Department of Health Services order requiring either that recreational body contact activities in Contra Loma Reservoir (Reservoir) cease, or that CCWD stop using the reservoir for domestic water supply storage. CCWD's proposal would permanently stop body contact activities in the Reservoir in September 1999, and would construct a lagoon within the existing Reservoir to allow swimming and certain other activities. This project would enable CCWD to continue using the Reservoir for its historic domestic water supply purposes, including use for meeting peaking requirements and for system reliability during shutdowns and other emergencies. Action taken by Reclamation would allow CCWD to implement the proposal on lands owned by the United States at the reservoir. The DEIR/DEIS describes and presents the environmental effects of five alternatives, including two no-action alternatives. A public hearing will be held to receive comments from interested parties, organizations, and individuals on the environmental impacts of the proposal.

DATES: Submit written comments on the DEIR/DEIS on or before March 25, 1999. Comments may be submitted to Reclamation or CCWD at the addresses provided below. The public hearing on the DEIR/DEIS will be held on February 18, 1999, at 7:00 p.m.

ADDRESSES: The public hearing will be held at the Antioch Senior Center, 415 W. Second Street in Antioch, California.

Written comments on the DEIR/DEIS should be addressed to Ms. Fran Garland, Contra Costa Water District, 2300 Stanwell Drive, Suite A, Concord CA 94524, or to Mr. Bob Eckart at the Bureau of Reclamation, 2800 Cottage Way, Sacramento, CA 95825.

Copies of the DEIR/DEIS may be requested from Ms. Garland at the above address or by calling (925) 688-8312.

See **SUPPLEMENTARY INFORMATION** section for locations where copies of the DEIR/DEIS are available for public inspection.

FOR FURTHER INFORMATION CONTACT: Mr. Bob Eckart, Bureau of Reclamation, at (916) 978-5051, or Ms. Fran Garland, Contra Costa Water District, at (925) 688-8312.

SUPPLEMENTARY INFORMATION: The proposed action includes the continued use of Contra Loma Reservoir
